RE: CORA Request – Follow up

Dear Ms. Young,

The Colorado State Patrol (CSP) received your Colorado Open Records Act (CORA) request dated April 4, 2019 for the following records:

Emails and email attachments that fit ALL of the following criteria:

1) Sent or received between December 1st, 2018, and the latest possible date (i.e. today's date April 3rd, or the latest possible date available in the email system, as the systems are often up to a month behind)

2) Sent by an email address ending in "atl@adl.org" to any employee of the law enforcement agency to which this request is addressed, OR sent by an employee of the law enforcement agency to which this request is addressed to any "atl@adl.org" email address and/or any other employee of the town/city in which the law enforcement agency resides

3) Containing in the subject line, or body of the message, or attachment one OR more of the following search terms:

- Leadership Seminar
- Leadership Seminar in Israel: Resilience and Counterterrorism
- Leadership, Resilience and Counter-Terrorism Seminar
- NCTS
- National Counter-Terrorism Seminar
- Counter-Terrorism Seminar
- Israel

The emails and/or attachments are likely to include, but are not limited to:

- an invitation to participate in the Leadership, Resilience and Counter-Terrorism Seminar in Israel
- a participant roster
- a participant booklet

I responded to your request on April 8, 2019 informing you that the Colorado State Patrol (CSP) does not possess any such record or information of emails you listed. Additionally, Google emails are based on search criteria only. There are over 1100 members in the CSP and each member has to extract their own emails.

On April 28, 2019, you sent in a follow up email narrowing down specifically to, "...criteria to the agency's command staff and assistants of the command staff." Additionally, you asked "where you might find those employees or an organizational chart online."

The following is the link to the Colorado State Patrol website; <https://www.colorado.gov/pacific/csp/organization-structure>.

Lastly, you go on to state in your email that, "I have contacted dozens of department before this and I have never been told that individual employees must retrieve their own emails. Do you mean to say you do not have the ability to run key word searches in relation to the email accounts of specific employees?" In response to your question, as I stated in my previous response April 8, 2019 the CSP utilizes a Google email, and Google email is based on search criteria. Each CSP member would have to extract their own emails, which is not feasible for each member to conduct. Since that time, you were able to narrow down your request from the 1100 members employed by CSP to only the CSP Command Staff. Since your request I have been diligently working with Command Staff and they have conducted a search of their email and I can tell you that, the CSP does not have records responsive to your request.

If you have additional questions or concerns, you may reach me at the telephone number listed below; otherwise, I will consider this request closed.

Sincerely,

Hilary Schwindt
